

Rugged Metal VME Handles

For VME and VXI

FEATURES

- Patented, all metal handles in extruded aluminum
- Conform to IEEE 1101.1 specifications for VME and VXI applications
- Our aluminum handles completely eject the PCB from the backplane
- Handles have flat plane to attach identification label
- All metal construction offers significant improvement over plastic
- No risk of out-gassing or burning in extreme environments

Triple E - Ruggedized Eurocard Packaging

Single CAM (VM-N, VM-W)

Versions

- Unique, robust design for rugged COTS VME applications
- Drop-in replacement design for plastic versions
- Finger grips are extruded into the handles for a sure eject every time
- N Style is direct replacement for Schroff VME plastic handle
- W Style is direct replacement for APW plastic handle

Twin CAM (VM-T, LM-T)

Versions

- Patented, all metal handle with traditional VME look
- Applies even ejection pressure across panel, reducing stress on PCB - even with stacked boards or wide panels
- Come in two versions: VM and LM

VM-T in Smooth Aluminum

LM-T in Medium Black

TECHNICAL SPECIFICATIONS

Kits include:

Handle and PCB Mounting Block (Sets contain 2)

3 Screws per Handle

Single: SS FHP M2.5 X 8, PHP M2.5 X 2, Combo Slot M2.5 X 10.5

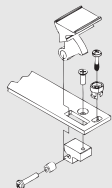

Twin: 2 SS PHP M2.5 X 8, and 1 Combo Slot M2.5 X 10.5

Plus, per Handle:

Single Cam

Pivot Bushing

Press in Plastic Screw Sleeve

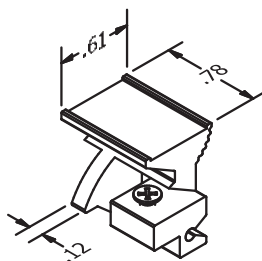

Twin Cam

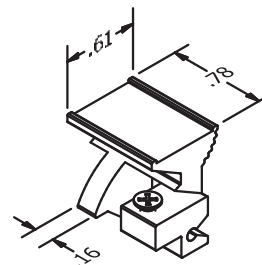

Dowel Pin

Each Ejector is made of Extruded Aluminum and finished with a Robust Powder Coat

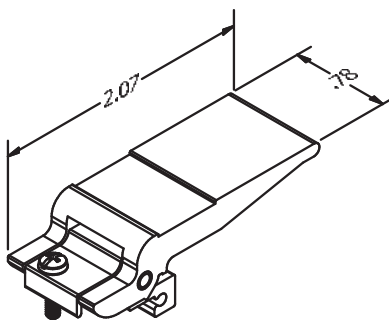

Single VM-N
Narrow Version

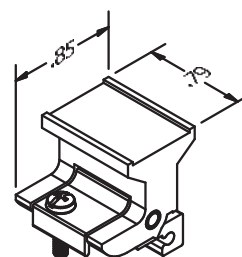

Single VM-W
